Documentation

Entry point for the document set. The full question-based index is index.md; the Russian set is ../README.md.

Core

- Deployment — start, upgrade and backups.
- Project guide — how the application and the scoring work.
- Accounts — creating a user and signing in.
- Dataset — the snapshot and the dataset generator.

Optional features

- Telegram Mini App and bot
- E-mail
- AI Analyst and the AI assistant

Reference

- Presentation generator
- Module map — what to borrow for another project
- PDF: ../pdf/
